

# BRIGHT IDEAS MADE TO LAST

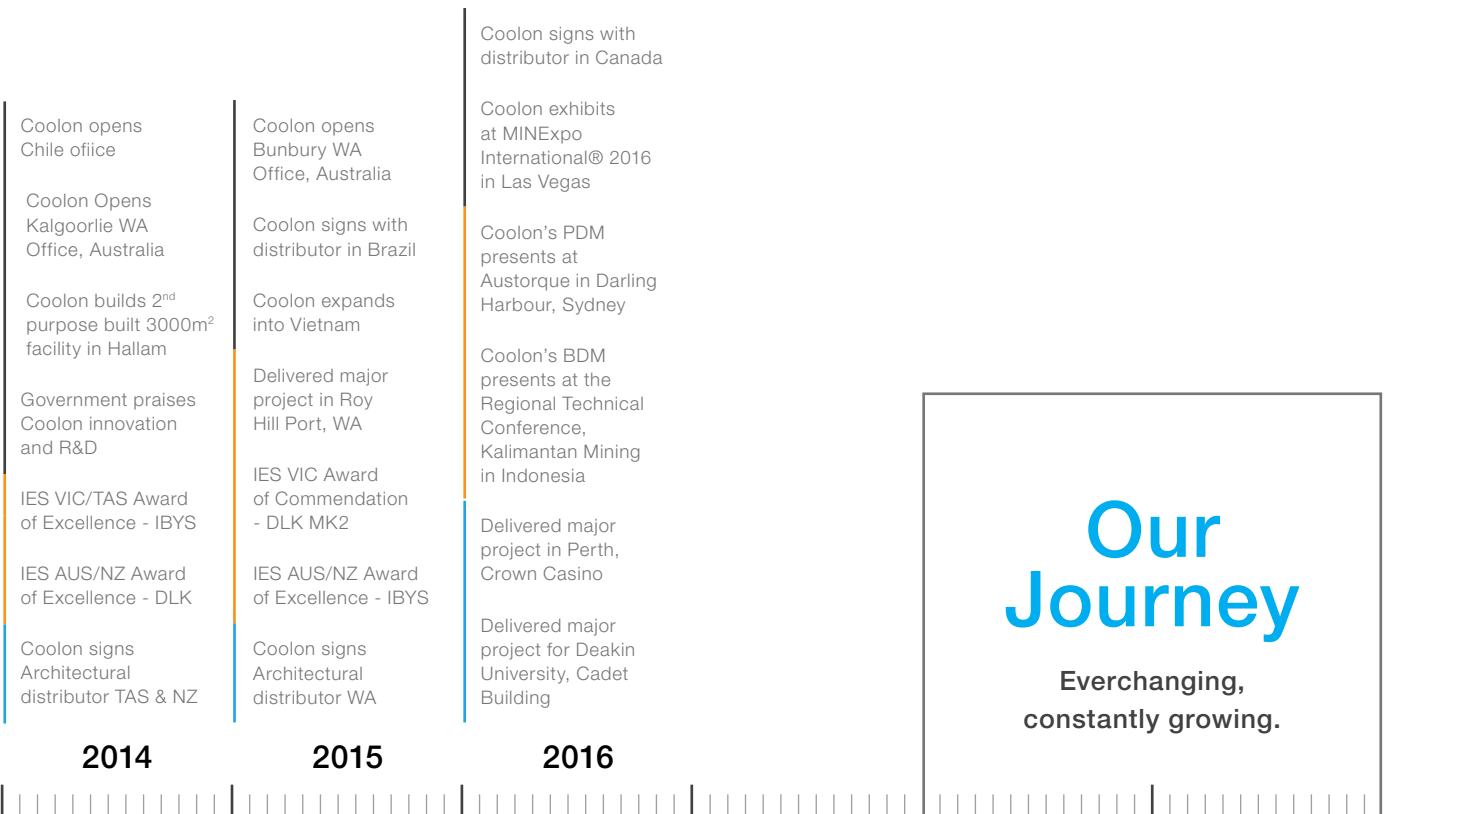

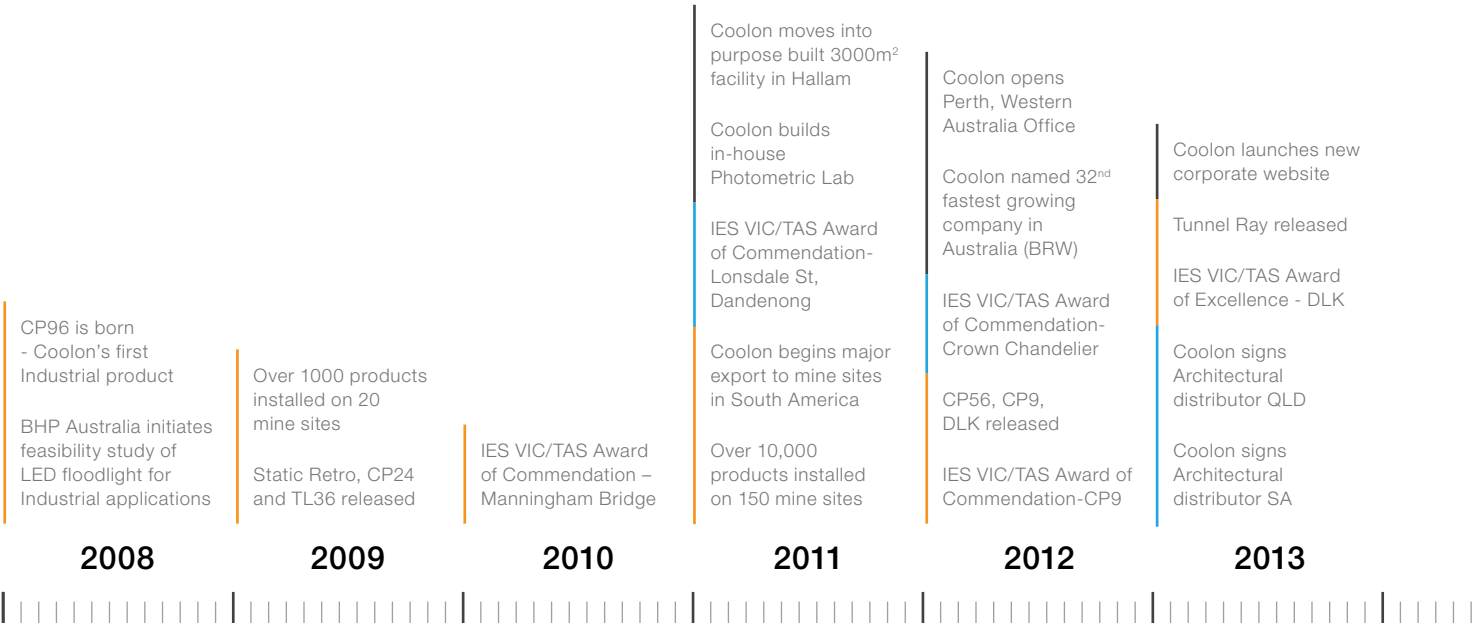

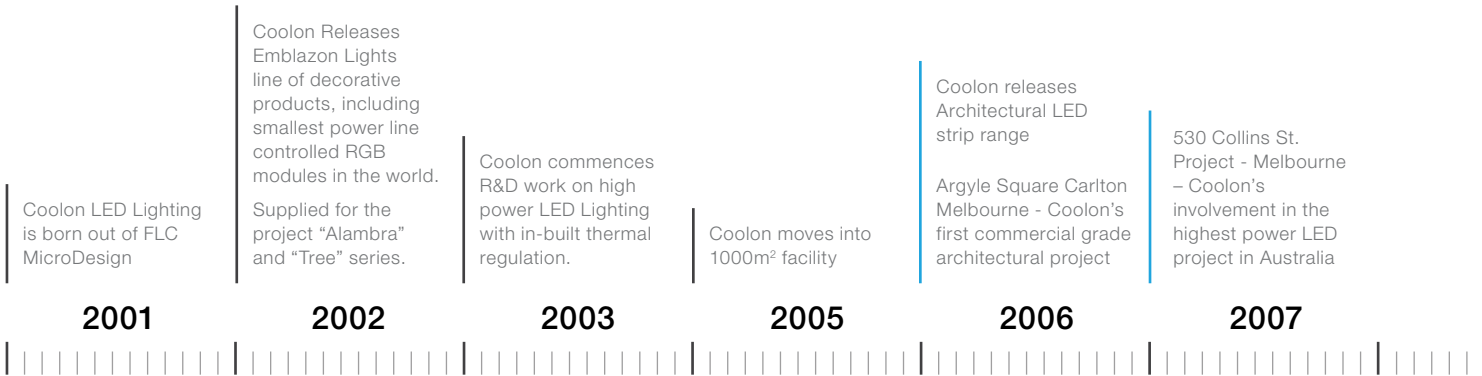

Coolon LED Lighting is  
the leading manufacturer of LED  
lighting products in Australia

# Our Business

With over 20 years of experience in electronics manufacturing, Coolon LED Lighting is the leading manufacturer of LED lighting products in Australia. Coolon specialises in LED lighting products for Industrial, Commercial and Architectural applications.

Coolon LED products are exclusively developed and manufactured in Australia to meet local and international standards. Coolon's range of lighting integrate advanced thermal management, short circuit and open circuit protection and many other innovative features. All products undergo rigorous testing during the development and manufacturing process and before leaving the factories. Coolon's history, experience and approach to engineering and manufacturing of LEDs ensure that their products stand out amongst its competitors and are the highest quality LED lights available on the market.

# Our Journey

Everchanging,  
constantly growing.

# Bright Ideas Made to Last

## Planning today for a Brighter future tomorrow

Clever design and innovative thinking is central to Coolon's drive for efficient and premium LED lighting products. Each and every product designed at Coolon is subject to hours of scrutiny, rigorous testing and evaluation, ensuring adherence to local/overseas regulatory requirements and standards.

Concept design and detailed product design is carried out by multiple disciplines from Mechanical Engineers to Industrial Designers and Software Engineers. Our experienced electronics engineers are constantly assessing and developing LED technology and design.

# Our Values

1

We deliver premium quality products and superior services our customers can rely on

2

We are committed to meeting the needs of our customers & constantly focus on customer satisfaction

3

We believe our people are our strength

4

We are determined to meet your goals and objective because we love what we do

5

We continuously invest in research and development to provide our customers with innovative and practical solutions.

6

We strive to lead by example

## We deliver premium quality products and superior services our customers can rely on

Here at Coolon we aim high. We have an uncompromising determination to achieve excellence in everything we undertake. Our goal is to offer superior products and services. All our products undergo rigorous testing during the development and manufacturing process and before leaving the factory. We use only the highest quality components from many local and overseas suppliers.

Our history, experience and approach to engineering and manufacturing guarantee that our products stand out amongst the many competitors in our segment.

## We are committed to meeting the needs of our customers & constantly focus on customer satisfaction

Coolon's commitment to customer satisfaction has been strongly embedded in the company values since inception and is one of the key factors to Coolon's success. As well as ISO9001 Quality Certification, we are dedicated to providing the best customer service possible by continuously listening and understanding our customer's individual needs and wants. We recognise that we can prosper only if we anticipate and meet customer needs, respond quickly to changing conditions, provide value for money and fulfill customer expectations better than our competitors.

We seek long-term relationships based on our comprehensive understanding of all our customers' and on the value we provide through superior products and services.

## We believe our people are our strength

We put our people and our culture at the heart of our strategy and we empower, enable, motivate and support each other to succeed. We aim to attract, develop and retain the best people at every level of the organisation and treat each other with honesty, compassion and respect. We create a stimulating, fun and open work culture that promotes personal development, creativity and celebrates success. We also support our employees in their efforts to enhance their capabilities and develop skills through their work so they can achieve individual growth and to provide you with the best possible outcome.

We are committed to being an organization wherein all employees are strongly motivated, have ample opportunities for advancement and work with pride and confidence.

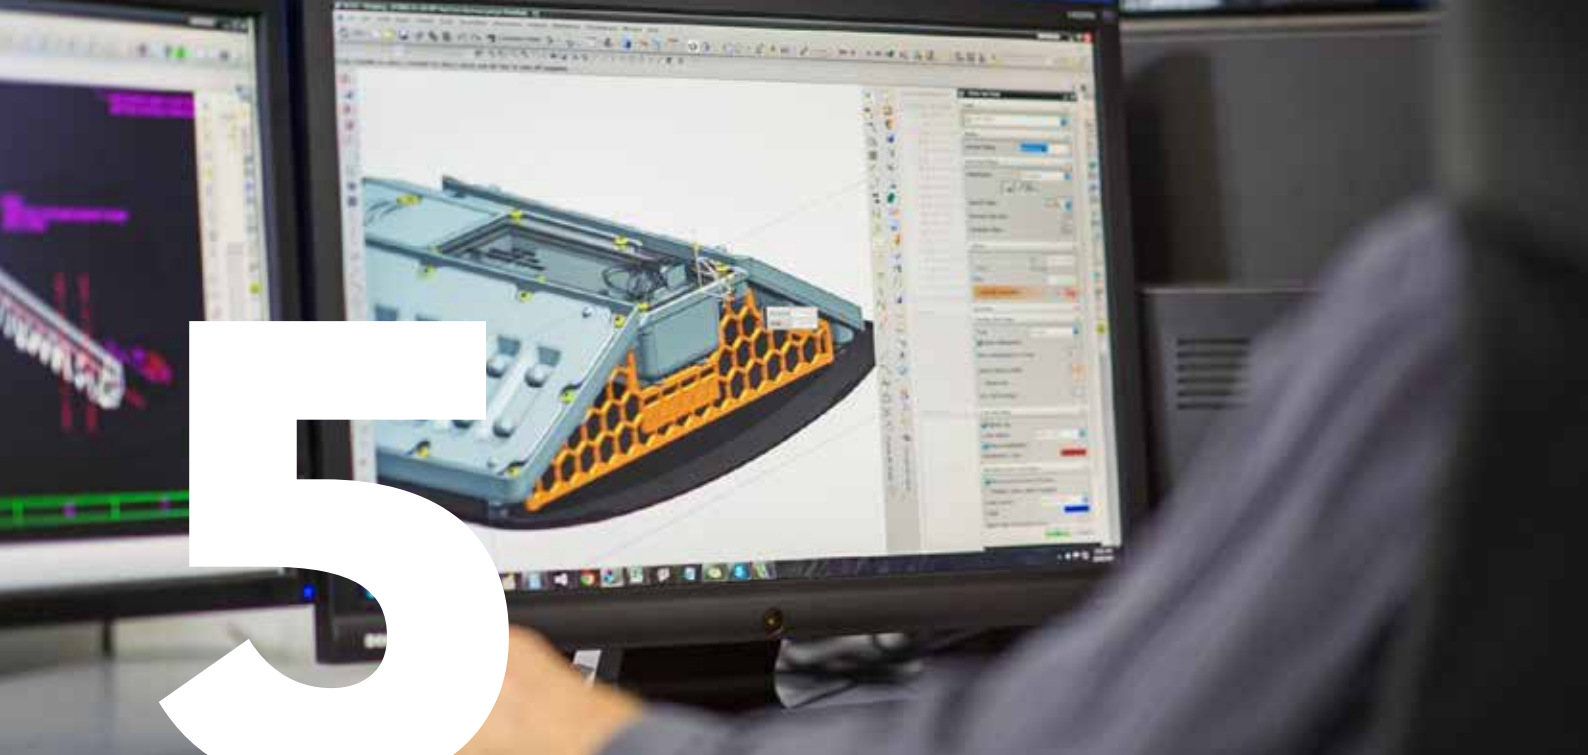

## We are determined to meet your goals and objectives because we love what we do

Passion is what Coolon was originally built upon, and what continues to drive us forward every day. Valuing passion, determination and perseverance, we have a strong desire to make your vision a reality. With over 20 years of experience in electronics manufacturing, you can be confident that our products will more than just satisfy. You know your project will be a success, because we invest our hearts, hands and mind, every step of the way.

We have enormous pride and respect for our business, as it took many years of hard work, nurturing and development for it to be here today.

We continuously invest in research and development to provide our customers with innovative and practical solutions.

We strive to put forward new ideas, break down boundaries and seek new solutions for Coolon and our customers. We constantly look for ways to innovate and improve, and we embrace change as an opportunity. We want to be known as a company that introduces cutting edge, innovative and practical LED lighting solutions to our customers. We embrace creativity and consistently pursue new opportunities. We look for ways to make our research and development capabilities, products and services more useful to our customers, and our business practices processes and systems more efficient and effective. We listen to and collaborate with our customers to identify potential new products and make them widely available.

## We strive to lead by example

Coolon is quickly establishing itself a reputation for product excellence, innovation and growth. This is no accident, but the result of our attention to quality in every detail. While we are proud to receive industry recognition in the form of awards, our greatest credit is the sense of achievement that our customers feel. When customers leave satisfied they return with their next big plans, knowing that we can deliver on time and in budget. Our competitors are learning what it means to provide true service along with premium products, and our team are continually striving to improve on everything we do, never settling. There is just no excuse for “good enough”.

# Architectural

## More than meets the eye

When elegance meets performance. Coolon offers a wide range of LED lighting solutions for architectural applications. At Coolon, we consider how light and illumination can bring a personal, artistic or dynamic touch to your project. Each one of our architectural products can cater to any aesthetic, and we pride ourselves on working with each of our customers to create the perfect vision and results.

Coolon's architectural product range consists of:

- Strips
