

# ELS Colour Ring

ELS Colour Ring can be set to any colour you wish, perfect for highlighting glass fixtures or cabinets, or mounted on walls to cast gentle, coloured light.

The ELS Colour Ring can be used for highlighting glass fixtures or cabinets, or mounted on walls to cast gentle coloured light. ELS Colour Ring can be set to any colour you wish. The control mechanism of the ELS Colour Ring is embedded aesthetically into its design.

The metal ring acts as a touch sensor, allowing two modes of operation: manual colour set and automatic cycling mode. The choice of thousands of colours is at your fingertips.
