

G4 LED Light

Coolon has developed the G4 LED Light Module, an LED replacement for 5W G4 Halogen globes.

The G4 LED Light Module has a very long lifespan and does not require regular replacement.

It produces a natural white light and is capable of operating at 12V to 24V DC or AC.

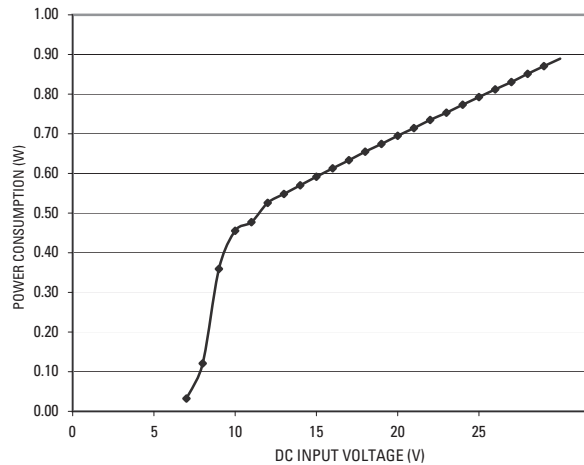

The G4 LED Light Module runs at a cool temperature and will not produce excessive heat.

Specifications

Height	31mm
Width	23mm
Depth	10mm
Nominal Input Voltage	12-24VDC / AC
Power Consumption	0.53W +/- 0.1W at 12VDC 0.77W +/- 0.15W at 24VDC

Made in Australia

G4 LED CG4-095B-V2
POWER CONSUMPTION
