CP34 Luminaire with Fixed Plant Bracket

281AL Aluminium Enclosure

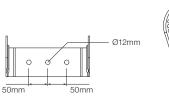

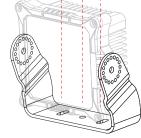

MOUNTING BRACKET INSTALLATION

Step 1

Mount light fitting to appropriate location.

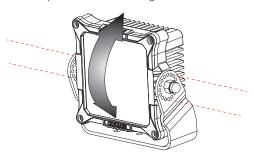

Fixed Plant Bracket

Step 4

Adjust the angle of the light fitting, and line up bracket holes to either the top or bottom mounting holes.

Step 2

To adjust the mounting angle, unscrew bolt and loosen dome nut.

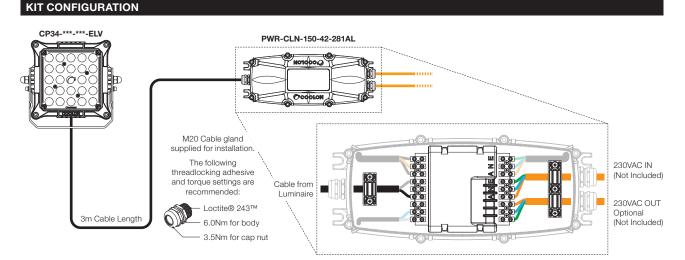

Step 4

Use Loctite® 243[™] retaining compound (not included) to secure the dome nut. Screw in and tighten bolts on both sides.

Use Loctite® 243™ retaining compound (not included) to secure the dome nut.

Distance between the power supply and luminaire can be extended up to 15m. The voltage drop on the cable must not exceed 2V. A wiring connection must be made from the input wiring terminal to the loop out terminal where optional loop out is required.
