Version 1.3
Page 8

▪ STEP 1

Before you begin installation, ensure that you understand the fitting layout required as supplied lengths may vary.

Refer to the supplied cut sheet for length breakdowns.

* For fittings 1m or longer two installers are recommended.

Product Length

▪ WIRING

If the fitting is wired from the back:
It will need to wired before mounting.

If the fitting is wired from the side:
It will need to wired after mounting.

Wire the fitting to the correct power supply as advised on the cut sheet.

## STAINLESS STEEL C-CLIP

▪ STEP 2

Prepare mounting clips and screws (Ø3.5mm).

Secure mounting clips with screws on timber or metal surface ensuring that mounting clips are positioned screw side up with spacings of 400 – 500mm.

400 – 500mm   400 – 500mm

▪ STEP 3

Lay the luminaire on top of the clips and align so all clips are centred. Starting at one end push down the fitting until you hear the clip lock into place. Continue along the profile until all clips are locked.
ROTATING BRACKET TYPE A & TYPE B

▪ STEP 2

Place rhomb nut in the base of the extrusion of the luminaire, ensuring that the edges of the nut are parallel with the edges of the extrusion.

Next place the plastic aligning clip over the rhomb nut.

▪ STEP 3

Place the edge of the bracket (with the slight lip) over the extrusion and secure the bracket to the rhomb nut using the screw provided.

▪ COOLON   archsales@coolon.com.au   **aus.** 1300 287 533   **intl.** +613 8681 3633   www.coolon.com.au
All documentation is subject to change without notice. Refer to our website for the latest information.

Version 1.3
Page 9

▪ STEP 4

Prepare screws (Ø4mm). Secure the other side of the bracket with screws on timber or metal surface ensuring that mounting clips are straight with spacings of 1,000mm.

Approximately
1,000mm spacings
▪ STEP 5

Rotate the fitting to the desired angle and use Allen key provided to tighten bracket to secure in place.

TYPE A

35°

125°

Lock when at
desired angle

TYPE B

75°

115°

Lock when at
desired angle
▪ STEP 6

Wire the fitting to the correct power supply as advised on the cut sheet.

* *Typically supplied with AU flex and plug (1.8m long)*
