**INSTALLATION INSTRUCTIONS**

**Step 1**
Feed the cable through and slide the DLK onto the spigot.

**Step 2**
Tighten bolts to secure luminaire to the spigot.

**Step 3** *(Optional U-Bolts)*
Mount the DLK to spigot by securing U-Bolts with washers and Nylock nuts.

**Notes:**
- MP: Mains Powered
- ELV: Extra Low Voltage Luminaire
- EML: Luminaire for Emergency Pack
**DLK INDUSTRIAL LED MANUAL**

**LIGHT SENSOR DIMMING**

- **Mains (230VAC) Version**
- **Low Voltage (24VDC) Version**

**WIRING**

**Mains (230VAC) Version**
- ACTIVE: Red
- NEUTRAL: Black
- EARTH: Green/Yellow

**Low Voltage (24VDC) Version**
- + POSITIVE (24VDC): White
- - NEGATIVE: Black

**LIGHT SENSOR DIMMING**

The DLK LED will be at 100% brightness when it is turned on and then will dim to 4% brightness when daylight is detected. 3 minutes after the daylight has dropped below the minimum ambient light threshold, the DLK LED will ramp up to 100% brightness. (Only applies to DLK equipped with light sensor)

---

**IMPORTANT**

**Primary use:** conveyor light for commercial and industrial applications.

- Read through this manual before installation
- Handle the product with care
- The product must be grounded
- The product must be installed by a suitably qualified person
- Turn OFF the power before installation and maintenance
- Make sure the product is securely installed
- The housing might become hot after operation
- Keep optical face clean
